

Weekly Overview of Learning

Year Group: 5

Week beginning: 30.9.24

Every **Tuesday**, you will see the weekly overview that sets out our learning for the week on the learning section of our school website and on Google Classroom. This is the work that children will be doing in school. Please take note of the 'Homework' section at the bottom of the grid. Homework will be set on **Tuesday** on Google Classroom and will be expected to be completed by the **following Tuesday**. If there are any questions about the homework, please email the Year 5 team on year5@alexandra.hounslow.sch.uk

English	Lesson 1	Lesson 2	Lesson 3	Lesson 4	Lesson 5
	LI: To retell a story using actions	LI: To identify features of a particular genre	LI: To apply the rules of inverted commas	LI: To understand the structure of a story	LI: To use adverbials in my writing
Key vocabulary and key questions	Key Questions: What visual clues tell us when the tale is set? How will you assign roles? How will you make the role play engaging? How will you vary your expression and tone? What will you focus on when practising?	Key Vocabulary: Identify, features, adverbials, dialogue, Key Questions: What features can you identify? What is a feature? What key could we use to identify? Can you think of your own example?	Key Vocabulary Inverted commas, speech marks, reported clause, verbs, direct and indirect Key Questions Which words do the inverted commas go around? Which synonyms do we have for said?	Key Vocabulary: Boxing up, story, narrative, planning, Key Questions What is the structure of our story? Who are the main characters? Where does it take place? What is the problem? How is this resolved?	Key Vocabulary: Adverbial, adverbs, fronted adverbials, sentence structure, commas Key Questions When do we use fronted adverbials? How do we use them correctly? What impact do they have on our writing? What different types of fronted adverbials are there?
Activities	Children will act out, role play a small section of the story in each group. When performed as a carousel the whole story will be performed.	Children will read the story as a class. They will unpick new vocabulary. Children will annotate their copy of the story with the language features identified.	Children will recap their knowledge of the rules of using inverted commas within their writing.	Children will create a Boxing Up plan of the story 'Alien Landing' children will unpick each structure of the story and write the main parts.	Children will use their knowledge from today's learning to use fronted adverbials in their writing, related to our science fiction story

Reading	Lesson 1	Lesson 2	Lesson 3	Lesson 4	Lesson 5
Learning Intention	LI: To explain what monitoring comprehension is	LI: To identify when a text doesn't make sense	LI: To recognise inconsistencies within a text	LI: To form questions about a text	LI: To recognise and fix inconsistencies within a text
Activity: 	Children will answer the question 'How do we know that we have understood what we read?' They will then think about what barriers they might have to comprehension and understanding a text. They will complete an anchor chart about their barriers and how they can monitor them.	Children will see a sentence on the screen that doesn't make sense and explain why it doesn't. They will then go through a complicated text and highlight everything that doesn't make sense to them.	Children will see a picture that has a large anomaly/inconsistency in it and have to work out what is anomalous in the picture. They will then have a set of sentences all of which have an inconsistency in them and have to identify it and explain why the sentence doesn't make sense.	Children will begin by matching structure pictures to the text types that they are. Children will then fill in their anchor charts with their strategies to fix their misunderstandings.	Children will highlight a text that has inconsistencies and will rewrite the inconsistent parts of that text.

Weekly Overview of Learning

Year Group: 5

Week beginning: 30.9.24

Every **Tuesday**, you will see the weekly overview that sets out our learning for the week on the learning section of our school website and on Google Classroom. This is the work that children will be doing in school. Please take note of the 'Homework' section at the bottom of the grid. Homework will be set on **Tuesday** on Google Classroom and will be expected to be completed by the **following Tuesday**. If there are any questions about the homework, please email the Year 5 team on year5@alexandra.hounslow.sch.uk

Maths	Lesson 1	Lesson 2	Lesson 3	Lesson 4	Lesson 5
	L.I: To subtract whole numbers with more than 4-digits	L.I: To round to check answers	L.I: To use the inverse operation to solve addition and subtraction problems	L.I: To solve addition and subtraction multi-step problems	L.I: To compare addition and subtraction calculations
Key vocabulary and key questions	<ul style="list-style-type: none"> • Which number goes at the top when using the column method? Does this affect the final answer? • Will you need to make an exchange? Which columns will be affected if you do? How do you know? • Does it matter if the numbers have different numbers of digits? • How do you know which digits to "line up" in the calculation? • How do you know if the calculation is a subtraction? 	<ul style="list-style-type: none"> • Which multiples of does the number lie between? • Which division on the number line is the number closer to? • What is the number rounded to the nearest _____? • What place value column should we look at to round the number to the nearest 10/100/1,000/10,000/100,000? • How could you use your estimates to check your answers? • Is the actual answer going to be greater or less than your estimate? Why? 	<ul style="list-style-type: none"> • If I add a number to another to get a total, what do you need to do to the total to find my original number? • If I subtract a number from another to find the difference, what do you need to do to the difference to find my original number? • What does an inverse operation do? • What operation is the inverse of addition? • What operation is the inverse of subtraction? 	<ul style="list-style-type: none"> • What is the key information in the question? • What can you work out straight away? How does this help you to answer the question? • How can you represent this problem using a bar model? Which bar will be longer? Why? • Do you need to add or subtract the numbers at this stage? How do you know? • How can you check your answer? 	<ul style="list-style-type: none"> • What is the same and what is different about the numbers in the two calculations? • Which digits have changed and which have stayed the same? • How will the answer change if you increase one of the numbers by...? • How will the answer change if you decrease one of the numbers by...? • How will the answer change if you increase/decrease both of the numbers by...?
Introduction	In this small step, children revisit the use of the column method for subtraction and learn to apply this method to numbers with more than four digits.	In this small step, children practise rounding in order to estimate the answers to both additions and subtractions. They also review mental strategies for estimating answers.	Children can use bar models or part-whole models to establish families of facts that can be found from one calculation and then use inverse operations to check the accuracy of their calculations.	In this small step, children apply the strategies they have learned so far in this block to solve addition and subtraction problems with more than one step.	In this small step, children are required to compare calculations. The focus is not on completing calculations, but instead exploring their structure in order to make a comparison.
Activities	<p>Starter – Flashback 4 - Introduction to activity or learning, consolidating previous understanding of mathematical concepts. Ping-Pong 1 main teaching point for the lesson with the new skill/ skills being clearly demonstrated and explained.</p> <p>Main Task – Children will complete a range of conceptual variation questions in their books to practice the knowledge learned in the lesson. They will move onto reasoning and problem-solving challenges when they demonstrate a level of confidence and understanding with the taught content.</p>				

Weekly Overview of Learning

Year Group: 5

Week beginning: 30.9.24

Every **Tuesday**, you will see the weekly overview that sets out our learning for the week on the learning section of our school website and on Google Classroom. This is the work that children will be doing in school. Please take note of the 'Homework' section at the bottom of the grid. Homework will be set on **Tuesday** on Google Classroom and will be expected to be completed by the **following Tuesday**. If there are any questions about the homework, please email the Year 5 team on year5@alexandra.hounslow.sch.uk

Spanish	Science	Topic - History
 <p>Mi Casa</p> <p>L.I To develop how to use the negative structure "En mi casa no hay..."</p> <p>Children will be developing their knowledge of Spanish words for rooms in the home. Using the 10 nouns we have learnt in this unit children will be learning the negative form of the sentence structure "En mi casa no hay..." (In my house there is not/ there is no). Children will be asked to write sentences using both the positive and negative form in Spanish.</p>	<p>L.I: To explain day and night and the apparent movement of the sun across the sky</p>  <p>Children will be looking how we are able to experience night and day due to the Earth's rotation. Children will then look at how the length of daylight changes throughout the year due to the change in the Earth's tilt and what causes seasons in a year.</p>	 <p>L.I to recognise the changes in Anglo Saxon religion over time</p> <p>Children will recap their prior learning, where the Anglo Saxons came from and where they settled. Children will look at the change in Anglo Saxon religion from Paganism to Christianity and how this occurred.</p>
Music/ D&T	PSHE / RE	PE
<p>Music</p> <p>LI: To select a section of a tune and perform it as a loop</p> <p>Pupils will be using or creating fragments of the Somewhere over the Rainbow tune which can then be looped, using their knowledge of how to play the melody from Lesson 3. They will then be playing these over a drum beat practise playing it as a loop (over and over), before introducing a backbeat.</p> <p>DT</p> <p>LI: To create a mood board to help inspire and generate a range of design ideas.</p> <p>Children will learn about mass productions and one- off productions thinking about what they will be using for the production of their own card. Children will then go on to thinking about the appropriate colours, themes, and emotions they can use for their design criteria from lesson 1.</p>	<p>PSHE</p> <p>LI: To understand rewards and consequences.</p> <p>Children will discuss what a reward is and the different types of rewards they can receive such as physical rewards (medals and certificates) and well as abstract ones (feeling proud of yourself and accomplished). Children will also consider what a consequence is and the different consequences they can experience. Children will create a poster about the different rewards and consequences that have been discussed in the lesson.</p> <p>RE</p> <p>L4 LI: To understand how pilgrimage shows commitment to God</p> <p>Children will watch a video all about Hindu pilgrimage and why it is important for Hindus to complete a pilgrimage during their lives. They will then sort a range of words into a Venn diagram of whether they are to do with pilgrimage or holiday and identify the differences between the two.</p>	<p>Football –</p> <p>LI To develop defending skills to gain possession</p> <p>Children will work on their defending positioning to regain possession of the ball from an attacker.</p>  <p>Dance:</p> <p>L.I: To create my own dance using, actions, pathways and counts.</p> <p>Children will learn a dance and they will be able to discuss and share ideas with a partner to create their actions. Children will still be using counts of 8 to help them stay in time with the music and each other.</p>

Year Group: 5

Week beginning: 30.9.24

Every **Tuesday**, you will see the weekly overview that sets out our learning for the week on the learning section of our school website and on Google Classroom. This is the work that children will be doing in school. Please take note of the 'Homework' section at the bottom of the grid. Homework will be set on **Tuesday** on Google Classroom and will be expected to be completed by the **following Tuesday**. If there are any questions about the homework, please email the Year 5 team on year5@alexandra.hounslow.sch.uk

Homework

Hello, Fantastic Year 5!

This grid contains homework for you to complete over the next week. We expect to see it completed by Tuesday 8th October. Remember **to upload your work to Google Classroom**. Please continue to practise your times tables and develop your love of reading further!

Thank you,
Miss Hynes, Miss Conway and Mr Severn

Reading

Please read for at least 20 minutes every day and record this in your pupil planner as a reading log.

Remember to bring your planner every day. Every week, your planners will be checked and signed off by your teacher.

Reading Plus - login to Reading Plus and complete some of the assigned activities.

Spelling and dictation –

What is the spelling pattern this week?
Words with the long vowel sound /i/ spelt with 'y'

apply	supply
identify	occupy
multiply	rhyme
cycle	python
hygiene	hyphen

What does each word mean?

Remember to try and use these words in sentences to show that you understand their meanings! Do you have any 'tricks' or strategies to help you remember how to spell a particular word?

Maths

Please log on to My Maths and complete the allocated consolidation lesson.

Topic/Other foundation subjects including writing

This week, to link with your History learning, we would like you to research a famous/well known Anglo Saxon and create a fact file about them.

Possible individuals:

King Vortigern
Hengist
Horsa
Alfred the Great
Edward the Confessor
Aethelred the Unready

Make it colourful and factual.

Research =>

- Who they were
- When they lived
- Why were they interesting?
- How did they have an impact and why are they remembered by historians?

Homework is set on a Tuesday and uploaded to Google Classroom and the APS website. It should be returned by the following Tuesday.
